

Studio
St Pierre

We engineer
the alternative.

Bespoke architectural surfaces. Engineered from A to Z.

New site: studiosaintpierre.com · launching Q2 2026

LOOKGROUP

We intervene where standard finishes stop.

STUDIO SAINT-PIERRE

A surface, for us, is not a coating. It includes elevators, ceilings, wall panels, sculptural assemblies. Every visible plane treated as an engineered system. It must perform as well as it appears.

We work with interior architects, developers, luxury brands, and shipyards. Across seven divisions. From Saint-Pierre-en-Faucigny (France) to any site, globally.

SEVEN DIVISIONS

One studio. Full material range.

01

Bespoke Finishes

Liquid metal, decorative paint, special varnish and lacquers

02

Printed Surfaces

Advanced surface printing for interior applications

03

Metal Weaving

Woven metal systems: feature walls, partitions, sculptural installations

04

Materialization

Physical production of digital works: artworks, sculptures, furniture, architectural surfaces

05

Interior Design Services

3D visualisation, spatial capture, surface pattern design

06

Engineering & Project Management

Technical detailing, fabrication supervision, installation coordination

07

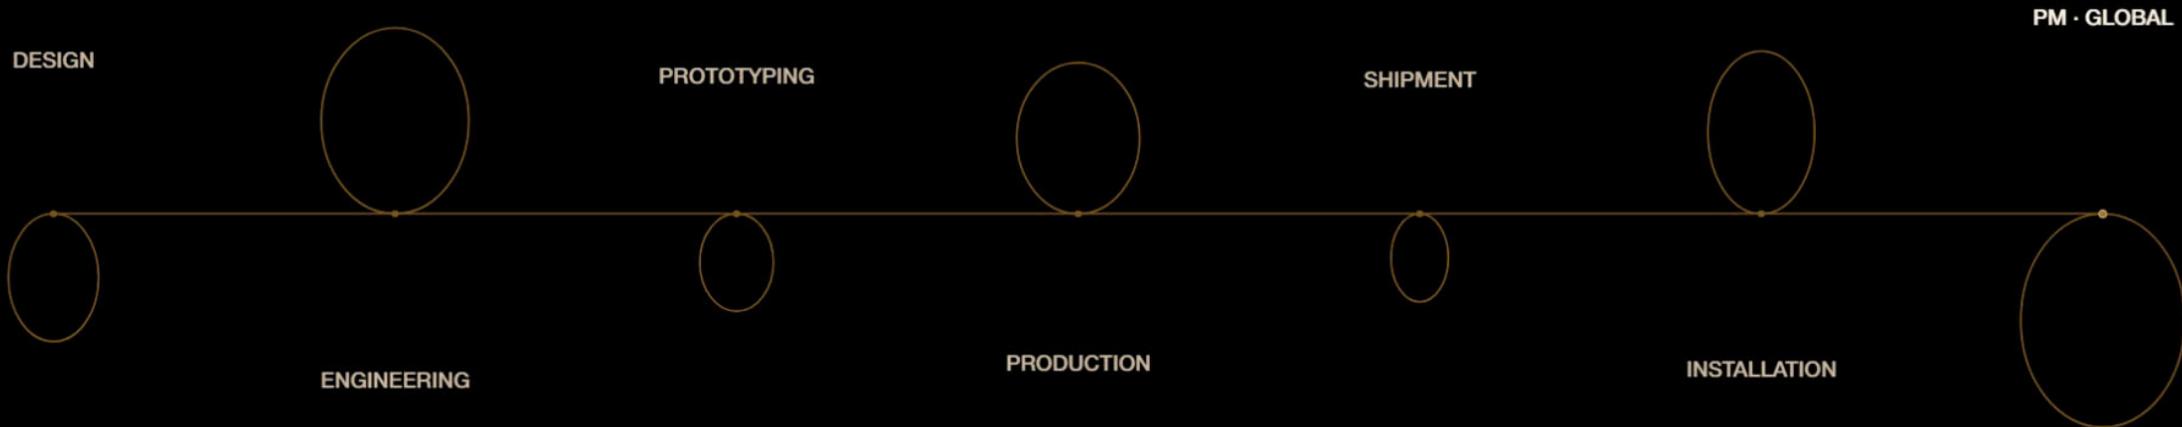

Global Projects

International retail and hospitality rollouts, multi-site management

FULL DELIVERY SCOPE

From A to Z.

When standard finishes are not enough, we engineer the alternative.

LOOKGROUP

The scale of a network.
The precision of a studio.

Europe	Middle East
North America	Asia

Studio Saint-Pierre is part of LookGroup.

An international network of specialised companies operating across four continents.

When standard finishes are not enough.

We do not operate as a catalogue supplier. Every project begins with a brief, not a product selection.

Our first response is creative, technical, not commercial.

Brief us. We respond personally within 48 hours.
